in urban areas, however, rural examples were built. Typically the rural versions were modest and simple in comparison to the city examples.

All variations of the Queen Anne style had some decorative materials such as patterned shingles, turned and jigsawn brackets, posts and gable ornaments. Bay windows or other attachments, which added interest to the wall surface and plan, were also common. The high-style Queen Anne and the Vernacular differed in terms of scale and massing. The former often featured a complex floor plan and multiple roof forms. The later often featured a simple rectangular plan, gable roof and some of the above mentioned ornament. The turned posts, jigsawn brackets, patterned shingles, gable ornaments, and leaded glass are the decorative features on the Miller house.

The house has had exterior alterations since the historic period. The garage was attached to the house, a door was replaced and a porch was enclosed with T-1-11 siding and aluminum windows. These changes detract somewhat from the historic character of the subject dwelling.

In addition to the house, there are six outbuildings which are believed to date from the historic period. A pumphouse, granary, corn bin and a chicken coop are in satisfactory condition. The hog house and chicken house are in deteriorated condition.

There are two other buildings on the property, a turkey barn and a feed mill, which are believed to post-date the historic period.

The landscape features, the mature trees and ornamental plantings, add to the historic character of the subject property.

SIGNIFICANCE

The Miller Farm is significant as an excellent example of a farm complex and for its association with Jacob Miller. The dwelling is significant as an example of an early 20th-century Queen Anne Vernacular residence. The subject dwelling is one of six Queen Anne Vernaculars from the Progressive Era listed on the Clackamas County Cultural Resource Inventory. The barn is one of five Western Barns listed on the inventory from the Motor Age. The granary is one of eleven granaries listed on the Clackamas County Inventory.
