Physical description of property and statement of historical significance:

The Hannah Covered Bridge is a span of 105 feet across Thomas Creek which was erected in 1936. The bridge has a vertical board and batten exterior and a gable roof. The exterior siding flares at the base. The bridge is open on the east and west elevations for lighting.

In an interview with Frank Kaiser in 1972, Jo Sommer reported that this bridge was built in 1929 or 1930. Kaiser was in charge of construction.

The truss arrangement is as follows:
