Physical description of property and statement of historical significance:

This bridge, built in 1938 for \$1,500, is the newest covered bridge in Lincoln County. It is made with Queenpost Truss construction and is 42 feet long. It has a board and batten exterior, flared at the base, and a shingled, gable roof. The bridge is open to traffic. This bridge is located near the end of a **dead end road** on the North Fork of the Yachats River. The location is at the base of a hillside. The bridge is shaded by a dense growth of trees on the hill and the nearby riverbank.
